

Full feature list

Booking system for UK solo lash, nail and brow techs
Generated 2026-07-10 · glow-uk.com

Everything included in the flat £19/mo plan (0% commission). Features 1–12 are numbered compliance and operations tools shipped on main.

Platform & business model

- UK-focused booking platform for solo lash, nail and brow techs
- Flat pricing: £9.50 first month, then £19/mo (or £180/year); 0% commission on client payments
- No marketplace — clients book your branded page, not a directory
- Stripe Connect — deposits and card payments go straight to the tech's bank
- Subscription billing via Stripe (monthly/annual, tester £1 offer, referral credits)
- Referral programme — refer a tech, get a free month when they subscribe
- Plan gating — live online bookings require an active plan/trial
- GDPR data export and account closure request from Settings
- Owner/admin panel — accounts, MRR, testers, closure requests, site traffic analytics
- Feedback / feature requests page and in-app Help guide
- Demo studio (Bella Rose) with reset option

Public booking page (/handle)

- Branded mini-site: business name, bio, location, brand colour
- Cover banner, profile photo, service gallery photos, portfolio gallery
- Services grouped by category; optional add-ons at checkout
- Opening hours, approved reviews, Instagram/TikTok links, sticky Book now CTA
- Real-time availability slots (15-min steps; respects hours, time off, existing bookings)
- Consultation form at checkout (custom questions: text, long text, yes/no)
- Patch test gating — blocks booking if no valid pass
- Infill rules — returning clients only, within your window
- Blocked clients cannot book online
- Booking approval flow — approve/decline before deposit (manual or rules-based)
- Risk-tiered deposits — low/medium/high based on client history
- Paired patch test + treatment — book test and treatment in one flow
- Loyalty discount applied automatically for repeat/VIP clients
- Waitlist — join when fully booked; emailed when a slot opens
- Deposit payment via Stripe; balance pay link before the appointment
- Booking confirmation and approval-pending pages
- DM quote deep link — ?service=..."e=... pre-fills from a quote link
- Privacy-friendly page view tracking (no cookies)

Dashboard areas

Area	What it does
Home	Today's overview, income, outstanding balances, insights, onboarding, running late
Calendar	All bookings, status changes, manual bookings, running late
Messages	Client messaging threads + DM quote panel

Clients	Profiles, patch tests, photos, reactions, evidence pack
Services	Categories, services, add-ons, products/batches, product change, retest queue, price rise
Opening hours	Weekly schedule + time off
Forms	Consultation questions
Reminders	Scheduled/sent reminders, reaction check-ins, infill nudges, pre-care
Reviews	Approve/reject; show on public page
Income	Tax & income reports, CSV export, tax pack PDF
Get paid	Stripe Connect onboarding
My plan	Subscribe, manage billing, referral link
Move to Glow	CSV import (services, clients, appointments)
Settings	Branding, protection policy, Google Calendar, iCal feed, loyalty, pre-care toggle
Help	How-to guide
Owner	Platform admin (owner only)

- Deposit forfeiture on late cancel / no-show (configurable cancellation window)
- No-show counter on client profile; balance tracking (unpaid/paid/refunded/forfeited)
- Booking detail page with full actions
- Google Calendar sync — create/update/cancel appointments automatically
- iCal feed — subscribe in Apple Calendar etc.
- Business insights on home (quiet week, outstanding balances, no-show risk, top service)

Booking rules engine

- Patch test validity per category (expiry days, minimum lead time before appointment)
- Patch test pass/fail recording with expiry dates
- Infill max gap days — must have completed visit within window
- Full set vs infill linking
- Blacklist / warning notes — block or flag risky clients
- VIP flag — trusted client + loyalty always on
- Booking approval modes — off, manual, or rules-based
- Auto-approve returning clients after N visits
- Risk tiers — low / medium / high with tiered deposit %

Payments & protection

- Per-service deposits — % or fixed or none
- Risk-based deposit tiers (medium/high % configurable)
- Stripe Connect deposits and balance payments
- Pay balance link (tokenised URL)
- Refund logic on cancellation (inside/outside window)
- No-show deposit forfeit; payment history per booking
- Income reporting — total, deposits, balances, forfeited, by month, by service

Automations & reminders (cron every 15 min)

- Booking confirmation — on book
- 24-hour reminder — day before (email + SMS when configured)
- Balance due reminder — before appointment
- Aftercare email — on mark completed
- Review request — on mark completed
- Rebooking nudge — 30+ days since last visit, no upcoming booking
- Waitlist alert — when a slot opens from cancellation
- Patch test re-test notification — after product change
- 48h reaction check-in — after patch test / chemical treatment
- Infill deadline nudge — before infill window closes
- Pre-care confirmation — 48h before appointment
- Running late cascade — one-tap notify remaining clients today
- Reminders preview page with Run due now button
- Marketing opt-out (PECR) — rebooking emails respect unsubscribe
- Pre-care toggle in Settings

Client management

- Client profiles — contact details, notes, visit history
- Patch tests — pass/fail, expiry, category, product batch used
- Client photos — upload with consent (before/after etc.)
- Consultation form responses stored on profile
- Adverse reactions — severity, symptoms, linked batch/booking
- Reaction check-in responses from client link
- VIP / blocked / no-show badges; private warning notes
- Loyalty discount — after N visits (VIP always qualifies)
- Client messaging — private thread via /m/{token} (no client app needed)
- Evidence pack PDF — full compliance export per client

Compliance & ops features (1–12)
